

Stephen Gately "Do Without Me"

Visit "[Do Without Me](#)" on MotoLyrics.com

Once, twice, three times yeah

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

There was something in the way you
Tried to tell me that you only been
Out with your girlfriends doing what you do
No way læŠ; buying that too
æ... ¤ause I can tell when youæŠ®e lying
And læŠ; so tired of trying
To justify what you do when all you do is keep
Hurting me

And it cuts just like a knife to think about it
That you cheated on me with somebody else

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once, twice, three times one too many

There will be no more lonely
Nights waiting by the telephone
Hoping that youæŠ£I find the time
To call me up tell you no more
So let me make you a promise
The love we had youæŠ®e gonna miss

æ...ause I know that this time will be
The last time, weæŠ®e history

And it drags me down to even think about
Leaving youæŠ` the only way to deal with this

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once, twice, three times one too many
Once, twice, three times one too many
Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once I can understand it
Twice I can let it be
Three times is one too many now
YouæŠ£I have to do without me

Once, twice, three times one too many
Once, twice, three times one too many
Once, twice, three times one too many
Once, twice, three times one too many
