I was born on a farm  
Were my mom milked the Cattle  
A Jug full of corn was my first baby rattle  
I could ride a tractor before I could ride a bike.  
My very first date took me to the theater  
that boy's biggest dream was to rule the best tator  
but I wanted to be much more than a Farm Hands Wife.  
So I packed up my bags and I headed for the water  
They all waved goodbye to the little farmer's  
Daughter

(CHOURSE)

I was setting sail for the best time of my life!  
Now I'm picking apples at the Sistine chapel  
Bailin hay on the shores of Yasay.  
I'm A Country Girl In every country of the world!  
Now I'm shuckin corn  
Were Shaksphere was born.  
Now im eating grits at the great pyramid  
Yeah I'm a country girl of every country of the world!

Just a country girl in every country of the world
