Moonlight, highway.  
Quicksand trying to pull us off the road  
But you don't succeed by giving up,  
That's one thing i know  
And I'm sorry you got sick  
And that I wasn't there  
And if I acted like a dick  
It didn't mean I didn't care

And I've been chasing dreams in magazines the last  
ten years  
And the way you treat your mother is up to you  
But it can't feel all that good to be so angry  
I guess I learned that too

Jessica is afraid she won't find love  
She says that she's never home  
And just last night I swear I heard her say  
"What if I die alone?"  
And this broken-hearted attitude  
You know it fits right in  
To this movie about all of us  
That's waiting to begin

And I've been chasing dreams in magazines the last  
ten years  
And the way you treat your lover's is up to you  
But it can't feel all that good to be so jealous  
I guess I learned that too

It will change in time  
We'll feel more alive  
Cause protection's like a wheel  
And the way you sometimes feel  
Can make you think that you might even be  
The worst person you'll ever meet  
But it's alright  
Cause we've got eah other  
We got each other  
We got each other

And I've been chasing dreams in magazines the last  
ten years  
And the way you treat each other is up to you  
But it can't feel all that good to be so scared  
I guess I learned that too  
I guess I learned that

Why am I so angry (I guess I learned that)  
Why am I so sad (I guess I learned that)  
Why am I so contagious (I guess I learned that)  
Why is it so good to feel bad  
I guess I learned that too  
(Just want to feel)  
I guess I learned that too
