(Intro)

You better get ready now
You better prepare
You better get ready now
You better prepare

(Verse 1)

I've been waiting
Now's the time
I'm ready to do my own
I don't know where I'm going
My destiny's unknown
I've been hating, never mind
I think I've found my even flow
Now my love's forever burning
While evil souls die alone

(Chorus)

Now's the time
The serchers find
But who am I to say
When all I know is the world is cold
And love's the only way
