When I was in love
My baby broke my heart
I had a hard time letting go
So I promised myself
There would be no one else
I'd never love again

Then you came along
And you gave me back my smile
You said you'd never ever leave my side
When I wake up at night
You're there holding me tight
No more tears for me

You make me wanna fall in love again
I never thought I'd feel this way again
But you came and made me fall in love again
I never thought I'd feel this way inside
I never thought I'd give love a try
But you came and made me fall in love again

When you smile
I feel so warm inside
Fireworks are in your eyes
I know this is real
A love that's finally real
Someone who loves me for me

When we hold hands
I got the world in the palm of my hand
I think you got the Midas touch
Ooh baby, touch me again
Ooh baby, touch me again
I can't seem to get enough

You make me wanna fall in love again
I never thought I'd feel this way again
But you came and made me fall in love again
I never thought I'd feel this way inside
I never thought I'd give love a try
But you came and made me fall in love again

Baby when you're touching me
And making love to me
When you're kissing me
You set me free
I don't know what you did
But I'm so glad you did it
You make me wanna fall in love again

You make me wanna fall in love again
I never thought I'd feel this way again
But you came and made me fall in love again
I never thought I'd feel this way inside
I never thought I'd give love a try
But you came and made me fall in love again

You make me wanna fall in love again
I never thought I'd feel this way again
But you came and made me fall in love again
I never thought I'd feel this way inside
I never thought I'd give love a try
But you came and made me fall in love again

You make me wanna fall in love again
I never thought I'd feel this way again
But you came and made me
