When you look into my eyes  
I feel like in paradise  
Let's go to a Holiday Inn  
And I will show you somethin'  
That you never saw before  
And you'll like it more and more  
It's a particularity  
A little bit strange but really funny  
Let's go to a Holiday Inn  
And I will show you somethin'  
Let's go to a Holiday Inn  
To a Holiday Inn and I'll show you somethin'  
Later you will laugh when you'll remember it  
It will be drawned in your mind for eternity  
I call it "it" because I don't want  
To tell you now what it exactly is  
It's a pity that I couldn't shut my mouth  
Such a pity, really, because  
I would love to see you when you discover it  
If you wouldn't be warned about it.  
Let's go to a Holiday Inn...
