"What I Do On Saturday"

I'm just a boring example of everybody else
I threw out the old one soon as I found something else
I'll never tell you what I do on a Saturday
I'll never tell you what I do on a Saturday

It happened so suddenly
The night you came and ruined my life
It blew up in front of me
A great big face

I'm just a boring example of everybody else
I threw out the old one soon as I found something else
I'll never tell you what I do on a Saturday
I'll never tell you what I do on a Saturday

It happened so suddenly
The night you came and ruined my life
It blew up in front of me
I swear you ruined my life
