"Home To Me"

That's my home to me
That's my home to me
Please don't take it from me
Please don't take it from me
From Me
Electric lights blow my stare
I'm crawling for a space to breath
Why should my home concern your needs
Please don't take it from me
A baby chair

A rocking horse
A nervous wreck
A memory loss
And sleeping pills
Ease the pain
I'm coming back
I'm back again again
That's my home
That's my life to me
Please don't take it away from me
Please don't take it away from me
