"Hurry Up And Wait"

Wait to wake to get a ride in the rain
Buy a ticket they can check, we can claim
So we don't spend what's our own
For a seat, a place to stop
A green light, a red cross
Run around naked doin' old things like the ones before

For a break so you can take a little somethin'
That'll make your next break
Come a little quicker than the ones before
For an answer, spy a sweet dancer
As she walks from the door of the hall
Wish you waited for your wedding vows

So hurry up and wait
But what's worth waitin' for?
So hurry up and wait
But what's worth waitin' for?

We wait to get warm, the car starts from cold
Stall to make a first move
Magazines make the rules to make us lose
For your dream man, the house you could both plan
The car in the sales ad
The wet dream with a man you wished that you had

So hurry up and wait
And what's worth waitin' for?
So hurry up and wait
But what's worth waitin' for?

A watched pot never boils, sugar second to dissolve
See your appetite lost, foods relevance lost inside
Wait to get there, and when we get there
We wait around for anyone to tell us what we even got
there for

So hurry up and wait
But what's worth waitin' for?
So hurry up and wait
But what's worth waitin' for?

What's worth waitin' for?
What's worth waitin' for?
What's worth waitin' for?
What's worth waitin' for?

So join the queue
Me and you
Wait in line
It takes our time to be satisfied
