Blackened mood I'm sick of you  
It's time that you got out my life  
You bring me down  
Lack of sleep, it's killing me  
I think it's time I closed my eyes  
For a while

I almost touched it  
But then it slipped right through my hands  
Could almost see it  
Then it slipped right out my mind  
I want you to show me  
I know you know how  
To lend me the moments  
Like they all count  
Teach me to love you  
Shine me the light  
Cause I'm in the darkness  
It's time I got out

Cracked and wounded down and out  
It's time the bleeding got cleaned up  
Stitch me up

I almost touched it  
But then it slipped right through my hands  
Could almost see it  
Then it slipped right out my mind  
I want you to show me  
I know you know how  
To live in the moments  
Like they all count  
Teach me to love you  
Shine me the light  
Cause I'm in the darkness  
It's time I got out

I want to show me just show me  
And show me the light  
Won't you show me just show me  
Just show me the light x2  
Show me how X7

Shine the light on me  
On me  
Won't you show me  
How to live every moment  
Shine me the light of your show and teach me  
How to love like you do  
Like it's the last day of the world
