he was walking 'round to you one said  
french afternoon so he called in to a shop  
for two he brought himself an ice drink a  
totally tropical nice drink then he saw  
what he thought was you in a room he  
tought about goin' over but you were  
always much older abd your sex dressed  
breasts impressed too he'd really like to  
get it together before the twelve of never  
so he's coming over it's when all the  
phases come around  
the clothes you wear the sex and love  
it's enough for the time outta touch out of  
luck he always liked them older so that his  
top lip touched on her shoulder  
lionized undisguised kill for you like to  
show you his teeshirt suntan like to show  
you his minute head stand then a gun spun  
open from you to me to me to you
