They're all true
They're all true
They're all true
They're all true

Diagonal sex from a surplus wire
It's colder slower, face perspires
Drank what was left from a high heeled shoe
It seems to me the clichés are true

They're all true
They're all true
They're all true

Diagonal sex from a surplus wire
It's colder slower, face perspires
Drank what was left from a high heeled shoe
It seems to me the clichés are true

They're all true
They're all true
They're all true

They're all true
They're all true
They're all true
They're all true

They're all true
They're all true
They're all true
They're all true
