

Stereotrap "Sinking"

Visit "[Sinking](#)" on MotoLyrics.com

Haven't I been here before
Endless circles, longing for more

Am I crashing to the ground
I need help to bring me back around
I try, I've tried everything
I know what I need
I know what's missing here

These waves crash over me
Am I sinking
Did my world crash down on me?
Haven't I felt this before
Endless searching
Yearning for more

Am I crashing to the ground
I need help to bring me back around
I try, I've tried everything
I know what I need
I know what's missing here

These waves crash over me
Am I sinking
Did my world crash down on me?

I need You
I want You
My whole world bleeds without You
I need You
I want You
My whole world drowns without You
