

Stereotrap "Tomorrow"

Visit "[Tomorrow](#)" on MotoLyrics.com

You've walked so far
The steps you take
Are worth the pain

Rise above
To see what this is for
Climb the hill
Where you saw light
Don't let it burn out
Don't lose sight

Don't let the sun go down on life
You've made it this far
You've made it this far

You've come so far
The road you choose
Is worth the rain
That falls on you

Hold onto this
To see what this is for
Scale the wall
Where you met hope
Please don't grow cold
Please don't slip

Don't let the sun go down on life
You've made it this far
You've made it this far
Can't let time go by
You've made it this far
You've made it this far

And when there's nothing left to take
And when there's nothing more to lose
Run to the cross
Run to the place where you saw Him
Place where you saw Him
