"Won't Give It Up"

How many times have I said
That I don't need you to follow me
Everytime I take the first step
You push me off the edge

You want my life
I won't give it up
I won't give it up for you
I won't give it up
I won't give it up for you

I can feel your hate drawing me near
But what do I have to fear?
I lift my hands
Surrender all and resist
And drop my chains
And run this race

Can't have my life

I won't give it up
I won't give it up for you
I won't give it up
I won't give it up for you
