It goes on and on (and on and on and on and on and on)
on)

Pressing through that envelope and into a new world

Open up your heart don't let it go. You know enough to
change the world bestowed

Not what you believe you mean everything to me.

Hold on, hold on, your good enough to pass the truth
from what you know. You always go.

It goes on and on (and on and on and on and on and on)
on)

Pressing through this envelope and into a new world

Fighting for what's right but to scared to go along.

You're moving

On and on and on and on and on

Open up and let this go, another heart can't take
control. Forever yours

And don't pretend to stay defend, when the means
don't justify the ends

Like your almost there, but you know I know you know

It goes on and on (and on and on and on)

Pressing through this envelope and into a new world

Fighting for what's right but to scared to go along.

You're moving.

On and on and on and on and on
