Where could I run?
Where could I hide?
The time marches on
And it's so cold outside.

I could be wrong
But I will be fine.
The soldiers are dead,
Our war was a lie.

White fades to black.
You can never get
Away from the rain.
It's so cold outside...

I am not the boy you know.
Where have all the prophets gone?

Sing and dance and play with the fire,
Who could be a better Messiah?
Turn your back and don't trust the liars.
Get out now before it's too late.
Close your eyes and pray for tomorrow,
Don't look back we share all the sorrow.
No one will suspect a thing,
We build the empire, we killed the king.

We are not like the rest of men.
We spit and walk all over them.

Wearing the crown
It's hard to pretend,
The war is now
Our soldiers are scared.

I'm ready to die
And I hear your name.
Ready to live
But not by your side.

I'm counting the days
Before I can fly.

The winter starts again,
And It's so cold outside...

I am not the boy you know.
Where have all the prophets gone?

Sing and dance and play with the fire,
Who could be a better Messiah?
Turn your back and don't trust the liars.
Get out now before it's too late.
Close your eyes and pray for tomorrow,
Don't look back we share all the sorrow.
No one will suspect a thing,
We build the empire, we killed the king.
