You hide
I seek a place
They'll never ever find me in
I cry
Inside a face
I never want to see again

Take me far away
Be my sanctuary

Close my eyes
I'm here again
To wish our fears away
Together
But don't you feel ashamed
Just keep me safe
Forever

They're here
I hold my breath
I'm never gonna speak a word
Don't move
Don't show yourself
Maybe I can stay for good

Always here for me
You're my dignity

Close my eyes
I'm here again
To wish our fears away
Together
But don't you feel ashamed
Just keep me safe
Forever
