Got a feeling that something's changing  
There's a new star in my sky  
Got a reason for celebrating  
This time, this time  
I can't tell you why but it's no lie  
I'm on a natural high

She's got a love that's good for me  
It's like sugar for the soul  
And every day it's a little more sweet  
Just like sugar for the soul

I found someone that goes much deeper  
Always keeps me satisfied  
Like an angel she'll be my healer  
Tonight, tonight  
I can't let her go cause now I know  
I'm on a natural high

She's got a love that's good for me  
It's like sugar for the soul  
And every day it's a little more sweet  
Just like sugar for the soul

I can't let her go cause now I know  
I'm on a natural high

She's got a love that's good for me  
It's like sugar for the soul  
And every day it's a little more sweet  
Just like sugar for the soul
