"A Song For Dustmites"

Visit "[A Song For Dustmites](#)" on MotoLyrics.com

Nano you
And nano me
Living beside me
The micron sea
Will the stars spin around
The earth again
I don't know
It's up to them
They'll get to it later
The biggest baddest world
You've ever seen
Is smaller than a tear
Where all the kids have robot hearts
And dustmites fight with micro gears
When the earth was still
And the universe spun round
Biggest baddest world
You've ever seen
Is smaller than a tear
Where all the kids have robot hearts
And dustmites fight with micro gears
