"Dear Old Friend"

I've never been someone who lives in the past,
The times that we shared were never meant to last,
There is value in the friendship we've grown,
I never knew, but now I know.

Sprinting through high school like it was a race,
We left our footprints all over this place,
We shared our worries and pondered our fates,
If we'd ever get to second base.

(Chorus)
If we never meet again,
If we throw out all our plans,
If this is indeed the end,
Then this is goodbye my dear old friend.

It's easy to lose yourself in his big world,
Easy to forget who was there when we first started out,
I know our lives will change,
Memories will still remain.

(Chorus) 2x
