I just wanna talk to you for a second
Come in, come here

No, don't go out, let's stay at home
'Cause when it storms, it's somethin' sexy 'bout the rain
Just wait a minute, this won't take me long
Light some candles, I'll go slip on somethin'
comfortable
And play some music that I like, to compliment this
special night
Oh, take me, I am yours

You be the predator, tonight I'll be your prey
In the position of submission, I can't get away
Take control, take your time, take me all night
Promise you won't stop, even if I say
Oh, oh, oh, oh, oh, oh, oh, oh, oh
Kiss me slowly, you know what to do
Oh, take me, I am yours

'Cause tonight I'm in the mood for being intimate
Show you how every part of me feels
I love the way you rubbin' all over my body
Gently touchin' me, givin' me chills

Gettin' all excited when, next to you skin to skin
Any part you want, I'm gon' give
So be stingy with your love, and put it all over me
It's quiet storm, I just want you to, hold me
Umm, you're so sweet

You know that I love, makin' love while the rain comes
down
Baby, you gon' make my love come down
Love the way you're makin' love to me
Make it come down, down, make it come down

You know that I love, makin' love while the rain comes
down
Baby, you gon' make my love come down
Love the way you're makin' love to me

Make it come down, down, make it come down

You know that I love, makin' love while the rain comes
down

Baby, you gon' make my love come down

Love the way you're makin' love to me

Make it come down, down, make it come down

You know that I love, makin' love while the rain comes
down

Baby, you gon' make my love come down

Love the way you're makin' love to me

Make it come down

Make it come down, make me feel good all over, baby

Make it come down, let the rain come down

Down, that's how I like it, baby
