Yeah

It could've been you

It could've been you

Congratulations baby, it's been a while

I heard through the grapevine that you're seeing a
friend of mine

I hate to say this, baby, but I think you should know

I hear 'bout how she treats you everywhere I go

I hear you're runnin', hidin', tryin' to be discreet

But let me to tell you, there's no need for you to hide
from me

I've found someone who takes my lovin' seriously

You've gambled and lost, baby, pay the cost for
walking out on me

It could've been you loving me

It would have been everything you wanted a love to be

It could've been you holding me, seven days a week

And baby, if you wanted a real love you should have
stayed with me

So here you come talkin', baby, with the same ol' lines

You're tryin' to break down my defense so you can tell
me one more lie

But I ain't hearin' you baby 'cause you caused me pain

This time you've gone too far and now you lost it all in
vain

You say you love me but I find it hard to believe

It didn't take that long for you to get over me

Now after all this time you're trying to get back with me

But now the tables have turned and you're on the
outside looking in

It could've been you loving me

It would have been everything you wanted a love to be

It could've been you holding me, seven days a week

And baby, if you wanted a real love you should have
stayed with me

I said, it could have been you loving me
It would have been everything you wanted a love to be
It could've been you, seven days a week
And baby if you wanted a real love you should have
stayed with me

I hear she's got you all stressed out
It cost you a fortune just to take her out
You say that she's takin' you for a ride
I could have told you so

If I had my choice I would be with you
But you could've done much better too
And that's what you get for thinking
That you could find a better love

It could've been you loving me
It would have been everything you wanted a love to be
It could've been you, seven days a week
Baby if you wanted a real love you should have stayed
with me

I said, it could have been you loving me
It would have been everything you wanted a love to be
It could've been you, seven days a week
Baby, if you wanted a real love you should have stayed
with me

It could've been you holding me, seven days a week
It could've been you holding me, seven days a week
It could've been you, baby, loving me, ooh
Seven days a week, loving me
Everything you wanted love to be
