Baby, it's over

Tryin' to forget about  
Ordinary things, typical, predictable  
Baby, I knew the end before it started

You got me feelin' like I owed you something  
'Cause you were there at times when I had nothing  
But you threw it all away with the shady things you do

Baby please forgive me  
For what I'm about to say and what I'm about to do  
I can't take no more  
I know you ain't been true, ain't got no love for you

You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

You've been cheatin' and tellin' me lies  
And you've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

I ignore my intuition and pass it off as a suspicion  
But you were just so bold, you kept puttin' it in my face  
I can't deny I let you hurt me

Baby please forgive me  
For what I'm about to say and what I'm about to do  
I can't take no more  
I know you ain't been true, ain't got no love for you

You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

You've been cheatin' and tellin' me lies  
And you've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

When you were down I helped to pick you up  
Instead you kept lookin' for the one  
When all the while what you were searching for  
Was in front of your face

Just forget it, you'll regret it  
It's really over now  
Just turn around and watch me walk  
I'm gone

You've been cheatin' 'round and tellin' me lies  
And 'round  
And you've been messin' 'round and lyin' down  
And 'round  
And you've been sleepin' 'round and 'round  
And messin' 'round  
And you've been messin' 'round and lyin' down  
And 'round

You've been cheatin' and tellin' me lies  
You've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

You've been cheatin' and tellin' me lies  
And you've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now

You've been cheatin' and tellin' me lies  
And you've been creepin' while I'm sleepin' at night  
And you've been chasin' every girl in sight  
And you've been messin' 'round and lyin' down  
It's over now
