Call me on the phone,
Say
you dont have no idea
when you'll be home.
But you love me.
And once again.
You're eating dinner
while you're
looking at someone
else's face.
Something, missing
when you told me.
And I dont feel good
at all.
I dont wanna be ignored
so I can be reassured.
Tonit im gonna need
so much more.

There is nothing
you can say to me.
Cuz I heard it
all before.
If you really loved me.
You would be showing me.
Love is not made in words.

I do understand
eventhough
I feel
the jealousy creep in.
But Im hoping
its just the fake.
Cuz I can't
feel disappointed
like this everyday.
I keep thinking
how we can
spend sometimes
and we can share
this physically.
I dont wanna be ignored

so I can be reassured.
Tonit
im gonna need
so much more.

There is nothing
you can say to me.
Cuz I heard it all before.
If you really loved me.
You would be showing me.
Love is not made in words.

Oh oh...
I'll do everything
to be the girl
of your dream.
You want heaven
in your life?
Don't be surprised
if one day
I aint around
(around).
Don't wonder why.
Oh..

There is nothing
you can say to me.
Cuz I heard it all before.
If you really loved me.
You would be showing me.
Love is not made in words.

No no..
Show me baby..
Cuz I'll be there
(I'll be there for you).
I wanna know
if you feel
the same about me.
(do you feel the same)
Say...
I'll be there for you.
I wanna know
you'll be there for me?
(x2)
