Hello hello to the tears you cry
Hello hello to your darkest nights
Where do you go hide when there's nowhere to go
Who do you confide in
Who do you know
Will you let me be the one to surround you
Will you let me be the one to hold you tonight
Be the one to love you for all time
Hello Hello to reality
Hello to the one that you never
Thought you would be
Where do you hide when there's nowhere to go
Who do you confide in
Who do you know
Will you let me be the one to surround you
Will you let me be the one to hold you tonight
Be the one to love you for all time
