With the sun top down and the wind all around  
You could almost feel the excitement  
The look in her eyes  
There could be no disguise  
The way we both felt inside

A bend and a hill man  
And then we were feelin'  
The warm summer breeze on our faces  
Sweet smells all around  
And the sun that beats down  
And oh how my heart races

For that sweet tempting touch  
For her kisses too much  
For those feelings I get when I get around her  
For how she's all around  
For the love that we found  
For that look that she makes when I make her laugh  
Oh, that's what I'm talking about

Now I'm here to say  
That she choose come my way  
It doesn't matter wind or rain  
When she's by my side, man  
It's pure paradise  
All I have to do is look in her eyes

For that sweet tempting touch  
For her kisses too much  
For those feelings I get when I get around her  
For how she's all around  
For the love that we found  
For that look that she makes when I make her laugh  
Oh, that's what I'm talking about

The way she holds me when the lights go out  
The way I feel for her I'll leave no doubt

For that sweet tempting touch  
For her kisses too much

For those feelings I get when I get around her  
For how she's all around  
For the love that we found  
For that look that she makes when I make her laugh  
Oh, that's what I'm talking about

For the touch, for the kiss,  
For the feelings I get  
For the look, for the love  
Yeah, that's what I'm talking about
