With the sun top down and the wind all around
You could almost feel the excitement
The look in her eyes
There could be no surprise
The way we both felt inside

A bend and a hill man
And then we were feelin'
The warm summer breeze on our faces
Sweet smells all around
And the sun that beats down
Oh how my heart races

For the sweet tempting touch
For her kisses too much
For those feeling I get when I get around her
For how she's all around
For the love that we've found
For that look that she makes when I make her laugh
Oh, that's what I'm talking about

Now I'm here to say
That when she comes my way
Doesn't matter wind or rain
When she's by my side, man
It's pure paradise
All I have to do is look in her eyes

The way she holds me when the lights go out
The way I feel for her I'll leave no doubt

For that sweet tempting touch
For her kisses too much
For those feeling I get when I get around her
For how she's all around
For the love that we've found
For that look that she makes when I make her laugh
Oh, that's what I'm talking about
