Only twilight, calm and barkless; no more daylight, only  
darkness;  
Only twilight, only twilight made the change without  
delay

Hope'n' psyche, open brainy; they throw my key to the  
drainy;  
Open psyche, open psyche - a chance to take without  
decay

Many attempts to swim puddles, lead to contempt,  
often muddled;  
Many attempts, many attempts; someone's listening  
again

Nothing, no more come from judy; lots of colour come  
from moody  
Nothing/no more, nothing/no more, I'm putting new  
coaches on the train

We was angry, no ! disheartended; stole the pantry,  
not the garden;  
We was angry, we was angry - back to the farm, back to  
the farm

No more angry, no ! more busy; got me sanctuary, ask  
who is he ?  
No more angry, no, no angry - we're rolling around in  
hyper schemes
