Hope I don't wake in the morning  
Find you running right away  
Every hour I'm down and worried  
Dream about it night and day  
To many places you can go  
When drowning in your sleep  
But no one wants to lie awake  
For hours counting sheep  
I'm fine what about you  
OK tell me the news  
We all know how to fight  
When there's something to lose  
In my mind I feel elation  
For many days I know you'll go  
Surrounded by four walls  
And by yourself you'll stay inside  
Behind your own front door  
Well I need to be on my way  
Hope to get through another day  
Well you know what shape I'm in  
And it seems I can never win
