### "Compared With You"

Visit "[Compared With You](#)" on MotoLyrics.com

I been trying to write this line  
But the years've gone by in no time  
And you know that it's not easy for a boy in love  
But I had to find a clue  
And it could only come from you  
Like a waterfall you tingle me with your love

Chorus: and you know that since you loved me I have  
everything  
And you know that since you loved me it's been easy

All the things that I been through  
Don't mean a thing compared with you  
You can give me life forever in a moment  
You carry me like a child and you're a goddess when  
I'm wild  
When I'm desperate in black you are golden

Chorus: and I confess...  
I'm in love with you (ad inf)
