How many times can I say it
I don't know why you don't think we can make it
If we just talk it out in a time when there's doubt
I know everything will fall into place
Every bridge that we cross isn't easy
Every line that we draw we don't mean it
When we say it in anger we fall into danger
You're not hearing what I'm trying to say

CHORUS

You know I'll always be here for you
No matter what we've both been going through
If we take a different route we can work it out
Cause we both have so much to lose
You know there's nothing that I wouldn't do
I'd put out the fires in hell it's true
I'll leave no stone unturned, won't let you get burned
And I'll prove, that I'll always be here for you

All of the trials that we're facing
If we don't give up hope then we've made it
Every wall that we climb we get stronger inside
Can't you hear what I'm trying to say

CHORUS

You know I'll always be here for you
No matter what we've both been going through
If we take a different route we can work it out

Cause we both have so much to lose
You know there's nothing that I wouldn't do
I'd put out the fires in hell it's true
I'll leave no stone unturned, won't let you get burned
And I'll prove, that I'll always be here for you

And if it all should fall apart
Don't forget who we are
Cause we can build it back
Right from the start

CHORUS

You know I'll always be here for you

No matter what we've both been going through
If we take a different route we can work it out
Cause we both have so much to lose
You know I'll always be here for you
No matter what we've both been going through
If we take a different route we can work it out
Cause we both have so much to lose
You know there's nothing that I wouldn't do
I'd put out the fires in hell it's true
I'll leave no stone unturned, won't let you get burned
And I'll prove, that I'll always be here for you

Yes I'll always be here for you
Yeaaahh
And I'll prove that I'll always be here for you
