You like my soft skin when I'm naked.  
Lying salvless in your bed.  
I'm a virgin you are saving.  
I'm a secret kept in bed.  
And we will lie together for hours  
And you will whisper in my ear.  
I will touch your chest.  
Caress your neck and we'll be ours..

[Chorus]

Innnn Looove.....In love  
Staaay in love with (In love)  
Innn love love love  
Stay with me..

Kiss my lips just like you need me.

Grab my hips and pull me near.  
Mark my neck with your long letters.  
Save my blood I hold so dear.  
Look our bodies fit so nicely,  
Look how bad I want you near  
Pick me up but touch me lightly.  
And we'll be ours..

[Chorus] x2

Innnn Looove.....In love  
Staaay in love with (In love)  
Innn love love love  
Stay with me..
