

Steve Miller Band "Close Together"

Visit "[Close Together](#)" on MotoLyrics.com

We gotta stay close together
We gotta stay close together
If we don't want somebody
To get ahead of us

You know that this old world is full of toil and sin
One little person, well, just can't win
Take the two of us goin' side by side
To try to keep each other from bein' taken for a ride

We gotta stay close together
We gotta stay close together
If we don't want somebody
To get ahead of us

You know that this old world is full of toil and sin
One little person, well, just can't win
Take the two of us goin' side by side
To try to keep each other from bein' taken for a ride

We gotta stay close together
We gotta stay close together
If we don't want somebody
To get ahead of us

We gotta stay close together
We gotta stay close together
We gotta stay close together
We gotta stay close together
If we don't want somebody
To get ahead of us
