We come a long way
We come a long way
We come a long way
We come a long way

We bared our burdens in the heat of the day
Knowing that the Lord would make a way

We had hard trials, oh we come a long way
We had hard trials we come a long way
We bared our burdens in the heat of the day
Knowing that the Lord would make a way
We had hard trials, we come a long way.

We had our burdens, we come a long way
We bared our burdens, we come a long way
We bared our burdens in the heat of the day
Knowing that the Lord would make a way
We had hard times, Oh Lord, we come a long way
We kept on praying, we come a long way
We kept on praying, we come a long way
We bared our burdens in the heat of the day
Knowing that the Lord would make a way
We had hard times, we come a long way

We come a long way, we come a long way, we come a
long way my Lord we come a long way
We bared our burdens, we come a long way
We bared our burdens in the heat of the day

We had hard times
I know we come a long ways
