(Steve Towson)

Swimming up from the bottom of the river bed
I can see the light shining through
so deep it penetrates
fillin me with hope

and yes you soothe me
like the ocean soothes the moon
you know you soothe me
like the ocean soothes the moon

the surface is a breakin
and my arms can feel there's air
so warm and moist just like
your lips
the first time I saw you

and now it's breakin
it is breakin on through
you know it is breakin
it's breakin on through

and you're soothin me while it's breakin
it is breakin me while you're soothin
soothin me while it's breakin
it is breakin me
while you're soothin
