(Steve Towson)

Well they locked me away
for the duration of the period
while the powers that be
marched on in to blow our minds away
saying it's ok to prosper
off the poor in our society
but soon the parasites they will learn that
those who fuck with fire
they will burn

so who do you believe?
the government, press or your friends?
who do you believe
the government. press or friends?

you know that I've been searching
for a way
to try to save this place
and there's two things that I've learnt
so listen to what I say

you've gotta listen to your family, listen to your friends,
talk to your family talk to your friends,
you've gotta listen to your family, listen to your friends,
talk to your family talk to your friends,

for what we need is peace not war
I say what we need is food not bombs
what we need is peace not war
what we need is food not bombs

so who do you believe?
the government, press or your friends?
who do you believe?
the government, press or friends?

well the rich they may fly high
high upon their private planes
but sooner or later they will land
and it ain't safe

when it rains

so who do you believe?
the government, press or your friends?
who do you believe?
the government, the press, the rich
your family, your friends?

I say who do you believe?
the government, press or your friends?
who do you believe?
the government, press or friends?
