(Steve Towson)

You're a fool
you are a fool
you think he loves you
him don't love you
him just wants you
for him too sly
him far too fly

oh the difference between me and you
the difference between you and me
all you know is it's all too kinda weird

oh I am eyes
I am far too eyes
for you whisper sweet things in my ear
make me feel unsafe, uncomfortable
kinda wierd

oh the difference between me and you
the difference between you and me
all you know is it's all too kinda weird

well you dangle the carrot in front of my face
tempting me luring me
all over the place
in search of a dream
in search of a dream

oh the difference between me and you
the difference between you and me
all you know is it's all too kinda weird
