Crash Course In The Blues  
Steve Wariner

To a boy from Indiana fresh off the farm  
L.A. looks like heaven with it's ever open arms  
My mama said to watch yourself like mamas always do  
Daddy said those city girls will walk all over you

So I hit the pavement running down on Hollywood and  
Vine  
I got to town by seven and I fell in love by nine  
She was a California angel wearing alligator shoes  
She had that something that a poor boy can't refuse  
She was incredible, she was  
A crash course in the blues

Now we're screaming down the freeway  
In this fancy foreign car  
Headed for another party  
Never seen so many stars  
Just when I thought I'd make my move  
And ask her to be mine  
She takes off with somebody else  
And kisses me goodbye  
She was incredible, she was  
A crash course in the blues

Well she was way too hard to handle  
For a country boy like me  
She's still a Roman candle  
Burning in my memory  
She was unbelievable, she was  
A crash course in the blues

She was incredible, she was  
A crash course in the blues  
That's right
