(Billy Kirsch/Steve Wariner)

Hey Hey what planet are we on
Everything seems wrong
Hey Hey tired of trying to survive
Living half alive

CHORUS:

I'm ready to ride this rocket baby come with me
To the other side of heaven our own galaxy
A million miles from anywhere
All we need is out of here
Let's go put some stardust in our pocket
Ready to ride this rocket

Someday wrong will turn to right
We will win this fight
But today all I wanna do
Is just get away with you

REPEAT CHORUS:

BRIDGE:

Turbo on this baby blue corvette
Red wine a blanket are you set
Oh there ain't no way to stop it
Are you ready to ride this rocket

CHORUS:

Are you ready to ride this rocket baby come with me
To the other side of heaven our own galaxy
I'm choking in this atmosphere
All we need is out of here
Let's go put some stardust in our pocket
Are you ready to ride this rocket
