A Folgers can full of night crawlers  
Never knew there was a hole in the bottom  
Til we reached the edge of the bank of Cumberland  
creek  
So young and so sweet  
We didn't care we just kicked off our shoes and  
Held one another 'neath the thumbnail moon  
And gently swayed to the sound of a whippoorwill  
And right then right there I swear I fell in love with you

Look at us now I'd say we made it  
Older and wiser but that moon never ages  
Same as it was the night my dreams came true  
And right then right there I swear if fell in love with you

#### CHORUS:

There underneath the stars  
Love reeled us in and hooked our hearts  
Young we were young it's true  
But old enough to know what happened to us

There on the bank of the Cumberland creek  
A Folgers can played a trick on me and  
When you laughed and gently kissed my cheek well I  
knew  
Right then right there I swear I fell in love with you

#### REPEAT CHORUS

Look at us now I'd say we made it  
Older and wiser but that moon never ages  
Same as it was the night my dreams came true  
And right then right there I swear if fell in love with you  
Under that moon I swear right then  
Right there I swear I fell in love with you
