(track 12 - time 4:12)

Every night when the shadows come
When the world slows down
When the day is done
The clock don't move and the phone don't ring
I'm alone again
It's the same old thing
I close my eyes and try to sleep so I can be
In your arms 'til the morning sun releases me

Every night I go dream walking
About the time the walls start talking
Everything around me calls your name
I go dream walking since you walked away

You come to me like a gentle wind
And I feel your touch
On my soul again
Like a sip of sweet champagne
I can feel your warmth when you call my name
I say all the perfect words in the candle glow
This time I'm not the fool who lets you go

Every night I go dream walking
About the time the walls start talking
Everything around me calls your name
I go dream walking since you walked away

Every night I make believe you're here with me
But every day the sunrise finds me
Down on my knees still wanting you
Why tell me why can't this dream come true

Every night I go dream walking
About the time the walls start talking
Everything around me calls your name
I go dream walking
I go dream walking
I go dream walking since you walked away
