(Bill LaBounty/Steve Wariner)
(Track 3 - Time 3:24)

The competition's getting tough
Good enough ain't good enough
Lately I've been workin' way too hard

Go ahead and take my hand
Forget about the rainbow's end
I'd have it all if you were in my arms

So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything

When you wish upon a star
What you dream is what you are
You've got to find your true identity

I don't want no quick success
The bottom line is happiness
What I need is you right here with me

So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything

I've been all over the world
And I've only learned how much I want you girl

You be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything
