Well I've heard it said  
The grass is always greener  
We want what we can't have  
Or so it seems  
When I looked at you,  
The world never looked any sweeter  
I go home to her,  
And see you in my dreams

(Chorus)  
So if you want someone  
To fill your waking hours  
With a love that is real,  
Baby I'm still not free  
If you think you could fall  
For a telephone call  
And some flowers  
If you're dreamin of someone  
You can dream of me  
When the stars are out  
Sometimes I still can remember  
The clear September night  
When we first met  
And through the fall  
I never looked at another  
Then the winter came  
How quickly we forget

(Chorus)  
Dream of me  
I'll be dreamin of you  
I'll never forget how you told me  
That your heart was taken too  
You said

(Chorus)  
I'll be dreaming of you babe,  
You can dream of me.
