Go get back to your brothers
Go take care of the others
Find a why and a wherefore
Find another thing you can care for
Go and make some deductions
Waiting for your instructions
Going to where I can do it
Pushing away to get through
Have I the heart of the Lion?
You just make up your mind and go
Win or lose, all the same thing
First and last, they will meet
Time is change and the road is long
All you hear is the same song
Going to where I can do it
Pushing away to get through
Have I the heart of a lion?
You just make up your mind and GO
