Neighbour Neighbour, don't wonder what goes on in
my home
You're always looking for something to gossip about
You got no trouble, my squabble grew
Something bad's gonna happen to you
Neighbour Neighbour, don't wonder what goes on in
my home

Neighbour Neighbour, don't wonder how I make my
bread- yeah
'Cause my success you know it's driving you right out
of your head
You're peeping and creeping through my hall
You got your great big ears glued down to my wall
I say neighbour neighbour, don't wonder what goes on
in my home - come on!

Neighbour neighbour, don't wonder how I treat my wife
- heh
You've gone around, you falsify and deny
You got no squabble, my trouble do
Something bad's gonna happen to you - I said
Neighbour Neighbour, don't wonder what goes on in
my home

Neighbour neighbour, don't wonder how I make my
bread - heh
'Cause my success you know is driving you way out of
your head
He got no squabble, my trouble do
Something bad's gonna happen to you
I say neighbour neighbour, don't wonder what goes on
in my home
Neighbour neighbour, don't wonder what goes on in
my home
