Well, so sad and lonely since my baby went away from  
me

Well, so sad and lonely since my baby went away from  
me

Well, black night has fallen, hum, oh how I hate to be  
alone

Well, I woke up this morning, I found out my baby's  
gone away from me

Well, I woke up this morning baby, found out my baby's  
gone away from me

Well, black night has fallen, oh how I hate to be alone

I got the blues about my baby

Girl, you know I'm about to go out of my worried mind

I got the blues about my baby

Girl, you know I'm about to go out of my worried mind

Well black night has fallen, girl I just ain't used to your  
kind.
