I want you I need you I want you I need you

Said it all started on a friday night
Money in my pocket so I'm feeling right
Steve'n'Chris looking for a little entertainment
Headed to the club and that's where we went
The soca music playin and everybody jumping
And there you were just wining
Listen what's up I gotta tell you something
I love the way your body moving on the floor just right
So come a little closer let me show you how to do things
my way
Say we can dance a song or two I'm not saying that you
have to stay
You got me fantasizing cause you look so tantalizing
Rocking with me could be suprising make you wanna
stay till you see the sun rising
Pre chorus
I love the way your body movin on the floor just right
You got me moving with you each time you go left to
right
And you know it turns me on each time I see your body
move
So you know I gotta get myself right there in that
groove

Chorus

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

So now were acquainted an I know you can move
Each step you take it's to the right groove
People in the dance they got nothing to say
All they gotta do is just clear the way
You got me in a frenzy the way you move that body
And now no one can stop we dancing up in this soca
party

Pre chorus

I love the way your body movin on the floor just right
You got me moving with you each time you go left to
right
And you know it turns me on each time I see your body
move
So you know I gotta get myself right there in that
groove

Bridge

Let me buy you a drink don't get me wrong
Cause I don't even think that your drinking strong
Ah seeing you sweat song after song
You bounce and you step and go down to the ground
Say when you move you got the stear of a thousand
eyes

That's when I had catch myself and realise

So close to me am I dreaming

Is this an angel in disguise baby

Pre chorus

I love the way your body movin on the floor just right
You got me moving with you each time you go left to
right
And you know it turns me on each time I see your body
move
So you know I gotta get myself right there in that
groove

Chorus

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove

I want you I need you every time your body move I gots
to have you

I want you I need you every time your body move to
that soca groove
