I see you everywhere, I see your eyes, touch your hair
You took me on a highway to the stars and left me
halfway there

I hold you in my dreams, your tender kiss is never what
it seems
'Cos when I wake up in the morning sun, I look but
you're not there

I cannot believe this has happened to me
It's been heaven in your arms
You gave me so much with an angel's touch
And then you took my heart

I see you in the street and people turning at my running
feet
But when I get up close, a stranger's eyes are looking
back at me

Oh, I cannot believe this has happened to me
It's like heaven for one day
You left me like this with an angel's kiss
And then you flew away

I see you everywhere, I see your eyes, touch your hair
I'm gonna take that highway to the stars and I will find
you there

I see you everywhere, I see you everywhere
I see you everywhere, I see you everywhere,
everywhere

And when I'm looking for you, I'm gonna find you
And when I find you I am, I'm gonna hold you
And when I hold you I am, I'm gonna love you
And when I love you it will, it will be forever

Everywhere

Everywhere
Everywhere

Everywhere
Everywhere
Everywhere
