Come in base, I've landed my ship on a planet here in
space
This is the one they say is inhabited by the human race
And I'm going out to look around and see what's here
And I'll tell you what I find

Confirmation on the inhabitants they're running
everywhere
And their technology is beyond what I've seen
anywhere
But I'm trying to communicate and they don't hear me
Seems like for all I'm finding, I can't find the most
important thing

Where are the signs, where are the signs of life?
The love that proves there is a beating heart inside
Where are the signs, where are the signs of life?
The compassion and concern that make this world turn
Where are the signs of life? Yeah, yeah, yeah, yeah

Now, I've got crayons rolling around in the floorboard
of my car
Bicycles all over my driveway, bats and balls all over
my yard
And there's a plastic man from outer space sitting in
my chair
The signs of life are everywhere

But I've got questions rolling around in the corners of
my mind
If it's true I live in a world where hope has all but died
And if I really have a living love alive in me
How am I letting it be known? How am I letting it be
seen?

These are the signs, these are the signs of life
The love that proves there is a living faith inside
These are the signs, these are the signs of life
The compassion and concern that make this world turn
These are the signs of life, signs of life, yeah

The signs of life

These are the signs of life, these are the signs of life
These are the signs of life, the signs of life

These are the signs, these are the signs of life
The love that proves there is a living faith inside
These are the signs, these are the signs of life
The compassion and concern
That's gonna make this world keep turning

These are the signs, these are the signs of life
A love that's flowing from the heart
Where the grace of God has left its mark

These are the signs, these are the signs of life
The reaching out of a servant's hand
The giving that makes no demands

These are the signs, these are the signs of life
This is loving proof of the faith inside
These are the signs of life

These are the signs, these are the signs of life
These are the signs, these are the signs of life
These are the signs, these are the signs of life
